How to Use This Book

• Start anywhere. You do not have to go in order. Pick the page that makes you smile.

• Each page has a title, one short instruction and a big space to draw in. Some pages already have a picture to trace or finish.

• Try the Bonus Challenge at the bottom if you want one more idea.

• Pencils, crayons and colored pencils work best. If you use markers, put a spare sheet of paper behind the page, because ink can show through to the other side.

• It is okay to try again on a spare piece of paper first. Practice makes drawing more fun!
